¹ Programs provide services, such as nursing, adaptive aids, dental and therapies, once all non-waiver program resources, including Medicaid state plan services, are exhausted. Services for individuals under age 21 are limited to those not covered under Medicaid state plan EPSDT benefits.

² Individuals using consumer directed services must use Financial Management Services. Allowed CDS service options vary by program

³ Professional therapies are occupational, physical, and speech and language (may include dietary, audiology, social work or cognitive rehabilitation).

⁴ Medicare beneficiaries receive their prescriptions through Medicare Part D.

⁵ Specialized therapies are aquatic therapy, hippotherapy, massage therapy, music therapy, recreational therapy and therapeutic horseback riding. The YES Waiver only includes music and recreational therapies.

⁶ CFC PAS/HAB is a Medicaid state plan funded service available to enrollees who live in their own home or family's home; however, CFC PAS/HAB services are available to people in the STAR+PLUS waiver program only if they are receiving Supplemental Security Income (SSI) or SSI-related Medicaid.
